

Barista Essentials

Ten reasons why our coffee is better

- 1 Better Green Beans
- 2 Handroasted
- 3 21 Minute Slow Roast®
- 4 Origin Flavour Lock®
- 5 Naturally Cooled
- 6 Date Roasted
- 7 Unique Grinds
- 8 Fresh Valve Technology
- 9 Coffee with a Conscience®
- 10 Carbon Neutral

Java Republic Brand House - the world's first purpose built carbon neutral coffee roastery.

Finally, between the covers of this book, all the essentials you and your Barista need to provide your customer with a great speciality coffee experience; from our award-winning coffee to cleaning products and more. Whether your business model is based on superior food, or just a good cup of coffee, you can't afford to under-estimate your clients expectations. Barista University

We don't just care about our brands; we care about yours. Every client of ours is a partner, and we both have a vested interest in how your customers experience our coffee. It goes without saying, even if we make the best coffee in the world, you can ruin our reputation by serving just one bad cup of coffee. That's why we have a complete programme of service and training to ensure that every coffee you serve does justice to our award-winning handroasted coffee beans.

The foundation of our education programme gives our customers the artistry, skills and experience they need to be a world class barista. We run training days at The Barista University in our Dublin Roastery; throughout our distributor base and at customers venues, with the sole aim of giving you or your staff the expertise needed to make a consistently good speciality coffee.

Course 1: Barista Training – (4 hours)

The basics, perfected: keeping your beans fresh; how to work and clean your equipment; and how to time and texture a perfect coffee.

This is a certificated course.

Course 2: Macchinesti Training – (4 hours)

Refinement of the knowledge of grinding, tamping, extraction times and dosing skills; mastering the flow procedures and milk texturing techniques.

This is a certificated course.

Course 3: Latte Art – (4 hours)

Advanced texturing techniques to produce milk that is wet, glossy and absolutely shines with perfection. The hybrid of science and art for the ultimate cup of coffee.

This is a certificated course.

Course 4: Cupping – (4 hours)

A course in coffee tasting to hone the tastes and aromas of brewed coffee. It incorporates a standard cupping procedure involving deeply sniffing the coffee, then loudly slurping the coffee so that it spreads to the back of the tongue. Since coffee embodies telltale flavours from the region they are grown, cuppers may attempt to predict the coffee's region.

This course is certificated by the London School of Coffee.

**Courses held last Thursday of each Month, excluding December.
Course requirement: 4-7 people. Phone: 01-8809300.**
